

THAI TABLE

An Authentic Thai Dining Experience

The lotus flower depicted in our logo is the city flower of Bangkok and has symbolized spiritual enlightenment for thousands of years. Indeed, the purpose of the flower's essence is to accelerate spiritual evolution and enhance healing on every level within the human body.

The flower grows in muddy water and each day rises above the surface to bloom with remarkable beauty. It closes and sinks under water at night, and rises and opens again at dawn. Untouched by the impure surroundings, it symbolizes the purity of heart and mind. The lotus flower represents long life, health, honor and good luck.
